GUIDELINES FOR USE OF PE Nail-Seal Tape DSK

Attach PE Nail-Seal Tape DSK to the roof sheeting directly beneath the counter-batten. The standards according to ÖNORM B 4119 and/or ZVDH (Central Association of German Roofers) must be observed.

The nail-seal tape dispenser has been special developed by ISOCELL. It enables a rational, time-saving and exact positioning of the PE nail-seal tape DSK on the counter batten. This provides additional safety during application. The dispenser can be used both in prefabrication and on site. It is easy to use, saves time and enables exact positioning on the roof battens.
